Announcement of the production of the new game “BUCCANYAR” and Titles to be exhibited at Tokyo Game Show 2022

Success Corporation (Headquarters: Shinagawa-ku, Tokyo; President: Takato Yoshinari) today announced the development of its new game "BUCCANYAR" and that it will exhibit several game titles, including this product, at Tokyo Game Show 2022, which will be held from Thursday, September 15 to Sunday, September 18 this year.

The new original IP is scheduled to be released in spring 2023 and is under development! TGS 2022 will have a test play table and a goods giveaway campaign!

At the Success Booth (Booth No. 2-N18) at TGS 2022, there will be a test play table for "BUCCANYAR".

Visitors can try out "BUCCANYAR", which is currently under development. Those who play on the test play table will receive a badge. Also, those who beat the boss for TGS will receive a sakosh.

Cosplayers dressed as the main characters will be available for photos, and videos of software for Nintendo Switch™ released this year will also be on display in the booth.

Please visit Success Corporation's booth during TGS 2022.

BUCCANYAR (Trial Play / Video Exhibit)

This adventure and marine combat game is scheduled for release in the spring of 2023. Set in a marine world, the game will feature three main characters and a crew of evolved cats who explore and battle in uncharted waters through shipboard adventures. Players choose one of these three protagonists to start the game. The player then proceeds through the story, opening new routes and customizing and enhancing his or her ship. Players can create their own unique ship by combining a wide variety of parts. Mysterious gods, monsters, and unique pirates also appear in the game, and an epic story about the mysteries of the world unfolds.

▲ The game begins by selecting one of kanna, a ship carpenter, Leelia, a diva, or Alicia, a gunner. This is an adventure game in which you will overcome numerous difficulties while customizing your ship. The ship's crew are cute cats.

Touch Detective Complete works (Video Exhibit)

After the third game in the series was released for the Nintendo DS in 2014, there were no new games in this series. Since then, Success has received frequent requests for sequels and ports. In response to fan requests, all three games in the series, content from the smartphone app version, and newly created additional content will be released together in a single software package.

▲ It will be revived 16 years after the first in the series, which was released in 2021. The "Funghi" related works that spun off from this work were a huge hit and are still being produced one after another as apps and goods.

Shepherd's Crossing (Video Exhibit)

The latest in a series of ranch life simulation games that has not had a new release on consumer consoles for 13 years, since the third game in the series will release in 2009, is now available on Nintendo Switch. It is "Shepherd's Crossing".

The game has been vividly revived with the addition of a zoomed-in view mode, improved operability, and some of the graphics have been upgraded to HD!

▲ It has been 13 years since the game was released on consoles. The unique mechanics of previous series are still in place.

Hamster Valley (Video Exhibit)

This is a simulation game that was released in August this year. It is a simple game where players simply collect coins and hearts to increase the number of facilities and hamsters. It can be enjoyed by people of all ages. When you tap the hamsters, they move in a variety of cute ways, such as rolling over and shaking their heads. Let's increase the number of cute hamsters designed by popular hamster artist GOTTE and develop your hamster village.
